Independently Published, United States, 2019. Paperback. Condition: New. Language: English. Brand new Book. Author of "Ready to Use 101 Powerful Excel VBA Code" Successfully like by millions of users, Now going ahead to develop Custom Excel Function.Excel having large collection of functions in-built . Mostly those functions are sufficient to complete the work. Sometimes, Excel doesn't have a pre-built function that suits a specific need, Well not to worry about it, you can create your own function called User Defined Function or custom Excel function with help of Visual Basic for Applications (VBA). You can access a User Defined Function any time just like any other Excel function.But the main problem is you should have good knowledge of Excel VBA Programming and need so much time to writing code as desire.This book helps you to use ready code by just copy paste and enjoy the work.Benefits of this books: -Available readymade function which is very unique and rare.-Create new formula in easy way instead of using long formula-Without any technical knowledge use the new function-Impress your boss with fast working-Earn 10000$ per month by making new project with help of my other book "Ready to Use 101 Powerful Excel VBA Code".
